

Name	Lightning talks
Brief Description	<i>Lightning talks are, as the name suggests, very short presentations on a particular topic, followed up by a round of Q&A.</i>
Methodology	<p>A speaker prepares a presentation on a particular subject. The presentation should:</p> <ul style="list-style-type: none"> • give a high number of focused information to the audience. • Raise attention on the topic of choice • Be short and catchy <p>Normally, they are delivered by different speakers in a single session.</p>
Estimated planning time needed:	1-2h
Objective	They are conceived to transfer the most essential pieces of information in a concise and dynamic way. These techniques are frequently used to catch the listener's attention, stimulating their curiosity and sparking future talks
Time estimated:	<15 min
Composition of audience:	All audiences suit this format
Experience level required:	Comparable level of experience among participants is envisaged
Number of audience:	10-40
Level of complexity and possible challenges	Medium to High - The presenter should be knowledgeable in the field of study of the presentation and able to provide insights during the Q&A.
